

SRINIVASA RAO TALARI

☎ +91-8341492762 ✉ srininvast20@gmail.com [in](#) [Linkedin](#) [G](#) [Github](#)

OBJECTIVE

Software Engineer with hands-on experience in Python Full Stack Development, REST API integration, and scalable web application development. Skilled in Python, Django, Flask, React, SQL, and Agile methodologies, with experience leading development teams and delivering reliable software solutions.

EDUCATION

Velagapudi Ramakrishna Siddhartha Engineering College **2023 – 2026**
Bachelor of Technology in Artificial Intelligence and Data Science (GPA: 8.73) Vijayawada

AANM & VVRSR Polytechnic College **2020 – 2023**
Diploma in Computer Engineering (Percentage: 89.17%)

EXPERIENCE

Python Full Stack Developer Intern [↗](#) **06/2025 – 09/2025, 01/2026 – 07/2026**
Council for Skills and Competencies (CSC India)

- Developed scalable web applications using Python (Django, Flask), JavaScript, and SQL, while designing and integrating RESTful APIs for enterprise applications.
- Optimized application performance through debugging, troubleshooting, code enhancements, and database optimization to improve system reliability.
- Led a team of developers, collaborated in Agile sprints, managed source code using Git/GitHub, and ensured high-quality software through testing and code reviews.

PROJECTS

Smart Safety Helmet System for Coal Mine Workers [↗](#) | IoT, Sensors, LoRa **Aug 2024**

- * Team Lead: Designed and developed an IoT-based smart helmet for real-time worker safety monitoring.
- * Integrated gas sensors (MQ-4, MQ-135), temperature, and obstacle sensors for hazard detection.
- * Implemented LoRa communication, and cloud logging for real-time alerts. Secured 3 Lakh INR research funding for innovation and development.

Hybrid ML-Based Health Insurance Fraud Detection [↗](#) | XGBoost, SVM, Python **Jan 2025**

- * Team Lead: Developed a hybrid machine learning model using XGBoost and SVM for health insurance claim fraud detection.
- * Built a real-time dashboard for claim verification and fraud probability visualization.
- * Reduced financial losses by approximately **30%** through intelligent prediction and analysis.

TECHNICAL SKILLS

Programming Languages: Python, Java (Basics), C

Web Development:: HTML, CSS, Responsive Design, JavaScript Object Model, Django, Flask, next.js

Databases: MongoDB, MySQL, Sqlite

Version Control: Git, GitHub, Branching Strategy, Pull Requests, Merge Conflict Resolution

AI / Data Skills: Artificial Intelligence Fundamentals, Machine Learning, Data Preprocessing, Model Development, Predictive Analytics

CERTIFICATIONS

Certifications: ServiceNow Certified System Administrator (CSA) — ServiceNow Certified Application Developer (CAD) — Google Cloud Associate Cloud Engineer — AWS Cloud Certification — MongoDB Basics — Linux Basics — Production Machine Learning Systems

AWARDS AND ACHIEVEMENTS

- * **3 Lakh R&D Grant – Smart Helmet Project**
- * **Appreciation Award – Innovation Acquisition Summit (VIKAS-24)**
- * **1st Place – Innovation Day, Velagapudi Ramakrishna Siddhartha Engineering College**
